

Estate and Trust Litigation

Our Estate and Trust litigation team advises and counsels personal representatives and trustees in the administration of estates after a death, including probate proceedings, preparation of accountings, and estate and fiduciary tax returns. We also represent clients in disputes and litigation among fiduciaries, heirs, and beneficiaries of trusts and estates. We are experienced with federal and state estate tax audits and appeals. We strive to provide all of these services in a timely, efficient, and caring manner, understanding the emotional and financial demands on the family.
